CEĻU SATIKSMES DROŠĪBAS DIREKCIJA

# From

2 January 2013, driving licenses in the Republic of Latvia are issued according to a new model. The licenses conform to the European Parliament and Council Directive 2006/126/EC (20 December 2006) on driving licenses, and they are issued by the State Joint Stock Company "Road Traffic Safety Directorate" (CSDD).

In Latvia driving licenses are issued with the following terms of validity:

10 years AM A1 A2 A B1 B BE

5 years C1 C D1 D C1E CE D1E DE TRAM TROL

Security features included in the driving license

- 1 Card body is UV dull.
- 2 Fine line background security pattern developed, using rainbow print with security colours in several tones, with a positive and negative Guilloche printing incorporating complex patterns.
- 3 Microtext.
- 4 Semi-transparent, diffractive, optically changeable Kinegram\* element, which partly covers the license holder's photograph and in which elements of small coat of arms of the Republic of Latvia are used.
- 5 Integrated license holder's photograph background – in the place where the license owner's photograph is anti-forgery print and the photograph overlap.
- 6 MAGIC-ID\* – the letters "LV", whose image moves in various and/or opposite directions depending on the viewing angle.
- 7 Variable laser engraved image incorporating the license holder's photograph and date of birth.
- 8 Optically variable ink (OVI\*) which changes colour as the viewing changes.
- 9 UV printing visible under ultraviolet light.
- 10 Positive surface structure – contours of the letters "CSDD" which can be felt by touch.
- 11 Unique card body number and one-dimensional barcode.
- 12 A font with altered individual letters.
- 13 Tactile laser engraving in the license holder's surname and license number.

More information about the Republic of Latvia's driving licenses is available from CSDD, including the option to verify the authenticity of a license. If you find, lose or damage a driving license, please contact: CSDD.
